Project2022-1-KA220-VET-000088929

**Co-funded by
the European Union**

To achieve this aim, REWIND project is going to develop four main results for promotion of WBO processes:

- **REWIND Training Plans**
- **REWIND eLearning Platform** and “Business and Management” Laboratory with video courses
- **Interactive, Collaborative and Co-working Portal**
- **Guidelines** for Democratic and Participatory Enterprises

ABOUT THE PROJECT

According to research, 96% of businesses successfully transferred to a buyer are still in business after the first 5 years following the takeover. Therefore, it is seen essential to increase awareness of importance of Worker Buy-out and promote it as an alternative business creation option.

REWIND project aims to promote Worker Buy-out (WBO) process for business creation and retention of businesses in the long-term through cooperative model by providing tools designed for VET professionals, consultants, employers, employees, and other actors involved in entrepreneurship and business support.

PROJECT LAUNCH

On 24th April, REWIND project kick-off meeting was held in Marseille. During the meeting, the consortium presented and discussed following items:

- preliminary work done for the development of Training Plans
- next set of activities for finalization of Training Plans
- wireframe of REWIND eLearning Platform and development strategy for video courses,
- clarification of expected activities and tasks within Portal
- set of actions within Dissemination and Project Management
